Attachments: DRAFT TLEF Pollinator Protection Session 07.19.19.mary comments.pptx

Hi,

I just received this from EPA's Office of Tribal Affairs. Amanda Hauff (EPA/OTA) is preparing a presentation to the TPPC at the Tribal Lands and Environment Forum on how to start a pollinator plan for tribes.

The slide deck is very wordy and needs a ton of work, but if you have only 30 minutes to contribute to this effort, I believe it would be helpful. There may be some errors or incorrect information that really should be corrected in the presentation. If you don't have time to help out, that's OK, please just let me know.

I am attaching the draft presentation and I will also be meeting with Amanda tomorrow to discuss. I added a few comments to it so far...

Thanks in advance,

Mary
